

## **Howell to Sports Can Improve Your Team's Performance**

Thank you for opening this newsletter. We purchased your name from a list of ABCA attendees. Howell to Sports has been assisting baseball coaches for over 25 years by improving their players hand-eye coordination, speed of recognition, decision making and dynamic visual acuity.

We have been content to help those locally, near southern NJ. We have decided to broaden our scope to include a more national audience. Maybe some of you have heard of Howell to Sports or maybe even read one of our newsletters. We would like to ask you to review this edition to see if you think we can help your team. If not, simply unsubscribe. If you would like to continue receiving these newsletter you need to do nothing. We will add you to our database.

**Kind regards,  
Ed Howell - Howell to Sports**
